BEFORE WE ARE BORN

Essentials of Embryology
and Birth Defects

7th Edition

**Keith L. Moore, PhD, FIAC,
FRSM**

Professor Emeritus, Division of Anatomy, Department of
Surgery
Faculty of Medicine, University of Toronto,
Toronto, Ontario, Canada

Former Professor and Head, Department of Anatomy,
University of Manitoba, Winnipeg, Manitoba, Canada

Former Professor and Chairman, Department of
Anatomy and Cell Biology, University of Toronto,
Toronto, Ontario, Canada

**T.V.N. Persaud, MD, PhD, DSc,
FRCPath (Lond.)**

Professor Emeritus and Former Head, Department of
Human Anatomy and Cell Science

Professor of Pediatrics and Child Health
Associate Professor of Obstetrics, Gynecology,
and Reproductive Sciences, Faculty of Medicine,
University of Manitoba

Winnipeg, Manitoba, Canada
Professor of Anatomy and Embryology, St. George's
University, Grenada, West Indies

With the Collaboration of

Mark G. Torchia, MSc, PhD

Associate Professor and Director of Development
Department of Surgery, University of Manitoba
Director of Advanced Technologies, Winnipeg Regional
Health Authority
Winnipeg, Manitoba, Canada

Contents

- 1 Introduction to Human Embryology 1**
 - Embryological Terminology 2
 - Importance of and Advances in Embryology 2
 - Descriptive Terms 7
 - Clinically Oriented Questions 8
- 2 Human Reproduction 9**
 - The Reproductive Organs 10
 - Gametogenesis 12
 - Female Reproductive Cycles 16
 - Transportation of the Gametes 21
 - Maturation of Sperms 22
 - Viability of Oocytes and Sperms 22
 - Clinically Oriented Questions 22
- 3 The First Week of Human Development 23**
 - Fertilization 24
 - Cleavage of the Zygote 27
 - Formation of the Blastocyst 28
 - Clinically Oriented Questions 29
- 4 The Second Week of Human Development 30**
 - Formation of the Amniotic Cavity and Embryonic Disc 31
 - Development of the Chorionic Sac 33
 - Implantation Sites of the Blastocyst 33
 - Clinically Oriented Questions 35
- 5 The Third Week of Human Development 36**
 - Gastrulation; Formation of the Germ Layers 37
 - Neurulation; Formation of the Neural Tube 40
 - Development of the Somites 42
 - Development of the Intraembryonic Coelom 45
 - Early Development of the Cardiovascular System 46
 - Development of the Chorionic Villi 48
 - Clinically Oriented Questions 48
- 6 Human Development during Weeks Four to Eight 49**
 - Folding of the Embryo 50
 - Germ Layer Derivatives 50
 - Control of Embryonic Development 50
 - Highlights of Development during Weeks Four to Eight 54
 - Estimation of Embryonic Age 60
 - Clinically Oriented Questions 61
- 7 The Fetal Period: The Ninth Week to Birth 62**
 - Estimation of Fetal Age 63
 - Highlights of the Fetal Period 64
 - Factors Influencing Fetal Growth 68
 - Procedures for Assessing Fetal Status 68
 - Clinically Oriented Questions 70
- 8 The Placenta and the Fetal Membranes 71**
 - The Placenta 72
 - Parturition 79
 - The Amnion and the Amniotic Fluid 84
 - The Umbilical Vesicle (Yolk Sac) 86
 - The Allantois 87
 - Fetal Membranes in Multiple Pregnancies 87
 - Clinically Oriented Questions 91
- 9 Body Cavities and Mesenteries 92**
 - The Embryonic Body Cavity 93
 - Development of the Diaphragm 95
 - Clinically Oriented Questions 100
- 10 Pharyngeal Apparatus 101**
 - Pharyngeal Arches 102
 - Pharyngeal Pouches 107
 - Pharyngeal Grooves 109
 - Pharyngeal Membranes 109
 - Development of the Thyroid Gland 109
 - Development of the Tongue 113
 - Development of the Salivary Glands 115
 - Development of the Face 117

- Development of the Nasal Cavities 121
 Development of the Palate 122
 Clinically Oriented Questions 128
- 11 The Respiratory System 129**
 Development of the Larynx 131
 Development of the Trachea 131
 Development of the Bronchi and Lungs 131
 Clinically Oriented Questions 137
- 12 The Alimentary or Digestive System 138**
 The Foregut 139
 Development of the Spleen 145
 The Midgut 146
 The Hindgut 148
 Clinically Oriented Questions 161
- 13 The Urogenital System 162**
 Development of the Urinary System 164
 Development of the Suprarenal Glands 173
 Development of the Genital System 173
 Development of the Inguinal Canals 186
 Clinically Oriented Questions 189
- 14 The Cardiovascular System 190**
 Early Development of the Heart and Blood Vessels 191
 Later Development of the Heart 195
 Anomalies of the Heart and Great Vessels 205
 Derivatives of the Pharyngeal Arch Arteries 214
 Pharyngeal Arch Artery Anomalies 214
 Fetal and Neonatal Circulation 217
 Development of the Lymphatic System 219
 Clinically Oriented Questions 224
- 15 The Musculoskeletal System 225**
 Skeletal System 226
 Development of Bone and Cartilage 227
 Development of the Joints 229
 Development of the Axial Skeleton 229
 Development of the Appendicular Skeleton 236
- Muscular System 237
 Development of the Limbs 242
 Clinically Oriented Questions 252
- 16 The Nervous System 253**
 Origin of the Nervous System 254
 Development of the Spinal Cord 254
 Congenital Anomalies of the Spinal Cord 258
 Development of the Brain 260
 Congenital Anomalies of the Brain 270
 Development of the Peripheral Nervous System 274
 Development of the Autonomic Nervous System 276
 Clinically Oriented Questions 277
- 17 The Eye and Ear 278**
 Development of the Eye and Related Structures 279
 Development of the Ear 287
 Clinically Oriented Questions 290
- 18 The Integumentary System 291**
 Development of the Skin 292
 Development of the Hairs 294
 Development of the Nails 295
 Development of the Mammary Glands 295
 Development of the Teeth 296
 Clinically Oriented Questions 301
- 19 Human Birth Defects 302**
 Teratology: The Study of Abnormal Development 303
 Anomalies Caused by Genetic Factors 303
 Anomalies Caused by Environmental Factors 311
 Anomalies Caused by Multifactorial Inheritance 319
 Clinically Oriented Questions 320
- References and Suggested Reading 321**
- Answers to Clinically Oriented Questions 326**
- Index 335**

BEFORE WE ARE BORN

Essentials of Embryology and Birth Defects

7th Edition

With Student Consult Online Access

Edited by **Keith L. Moore, PhD, FIAC, FRSM** and
T.V.N. Persaud, MD, PhD, DSc, FRCPath (Lond.)

Zero in on the most essential concepts in human embryology and development!

Concise and richly illustrated, this popular book delivers the embryology knowledge you need in a highly efficient, reader-friendly format.

- **NEW! 18 extraordinary animations online** vividly capture key developmental processes.
- **Succinct coverage** focuses on the most need-to-know human embryology concepts.
- **Sweeping updates** reflect all of the latest advances, including IVF, cloning, and the role of genes in human development.
- **New contributors** provide fresh perspectives on the latest knowledge.
- **More than 1,000 crisp illustrations and photos** make the material easy to understand.
- **A new, more user-friendly, full-color format** helps you learn more efficiently.
- **Review questions and answers** test your knowledge and help you prepare for exams.

Dr. Moore is the recipient of the first (2007) "Henry Gray/Elsevier Distinguished Educator Award"—the American Association of Anatomists' highest award for excellence in human anatomy education at the medical/dental, graduate, and undergraduate levels of teaching—a testament to his masterful teaching abilities, which help make **Before We Are Born: Essentials of Embryology and Birth Defects** such an effective tool for learning this complex subject.

This book comes with **STUDENT CONSULT access** at no extra charge!

Register at www.studentconsult.com today...so you can learn and study more powerfully than ever before!

- Access the **complete contents of the book online**, anywhere you go...perform quick searches...and add your own notes and bookmarks.
- View **18 remarkable, specially developed animations** that bring embryologic development to life.
- **Test your mastery of the material** with hundreds of additional review questions and answers.
- Follow **Integration Links** to related bonus content from other **STUDENT CONSULT** titles—to help you see the connections between diverse disciplines.

Look for the **STUDENT CONSULT** logo on your favorite Elsevier textbooks!
